

Creative Partnership Agreement

Version: 1.0 **Status:** Draft **Document ID:** TNS-001 **Document Owner:** TeerNetStudio **Document Classification:** Client Agreement **Last Updated:** DD/MM/YYYY

Cover Quote

"Great creative work begins with clear communication, mutual trust, and shared expectations."

Purpose

This Creative Partnership Agreement establishes a clear understanding between **TeerNetStudio** ("Designer") and the **Client** before any project begins.

Its purpose is to ensure transparency, professionalism, and a smooth creative experience for both parties by defining responsibilities, project expectations, communication standards, payment terms, and ownership rights.

This agreement is intended to protect both the Client and the Designer while creating a respectful and collaborative working relationship.

Agreement Information

Field	Details
Agreement ID	TNS-001
Project ID	
Agreement Date	
Client Name	
Business / Brand	
Email	
Phone Number	
Country	
Preferred Communication	WhatsApp / Email / Discord
Designer	TeerNetStudio
Representative	Yamato
Agreement Status	Pending / Approved

Guiding Principles

Throughout this partnership, both parties agree to uphold the following values:

- Professional communication
 - Mutual respect
 - Transparency
 - Honest feedback
 - Timely responses
 - Fair collaboration
 - Respect for each other's time
 - Commitment to delivering quality work
-

Definitions

For the purpose of this agreement:

Designer refers to TeerNetStudio or its authorized representative.

Client refers to the individual or organization requesting creative services.

Project refers to the creative work described in the attached **Project Scope (TNS-002)**.

Deliverables are the final agreed files and assets to be delivered upon project completion.

Revision Round refers to one consolidated list of requested minor changes submitted by the Client after reviewing a draft.

Approval means the Client has confirmed satisfaction with a submitted version of the project.

Business Day = Monday–Saturday, excluding public holidays observed by TeerNetStudio.

Agreement Scope

This agreement acts as the **master document** governing every creative project undertaken between the Client and TeerNetStudio.

Project-specific details such as deliverables, pricing, timeline, revisions, and file formats will always be defined separately in the corresponding **Project Scope (TNS-002)**.

If any conflict exists between this agreement and the Project Scope, the Project Scope shall take precedence for that specific project.

Document Relationship

Acceptance

By approving this agreement, both the Client and the Designer acknowledge that they have read, understood, and agreed to work together under the terms defined within this document.

 End of Section 1

TeerNetStudio Client Experience System (TCES)
TNS-001 • Creative Partnership Agreement • v1.0
Confidential • Internal & Client Use

TNS-001 - Creative Partnership Agreement

Section 2 — Partnership Standards

2.1 Our Commitment

At TeerNetStudio, we believe every successful creative project is built on collaboration rather than transactions.

This partnership is founded on:

- Trust
- Transparency
- Professionalism
- Respect
- Open Communication
- Creative Excellence

Both the Designer and the Client agree to work together with honesty, mutual respect, and a shared commitment to achieving the project's goals.

2.2 Client Bill of Rights

Every Client working with TeerNetStudio has the right to:

✓ Professional Treatment

Be treated with respect regardless of project size or budget.

✓ Clear Communication

Receive honest updates regarding project progress, delays, or challenges.

✓ Transparency

Know exactly what is included and excluded before work begins.

No hidden costs.

No surprise charges.

✓ **Fair Pricing**

Receive pricing that matches the agreed project scope.

✓ **Creative Collaboration**

Provide feedback throughout the approved revision process.

✓ **Privacy**

Have confidential files, business information, and project discussions handled responsibly.

✓ **Timely Delivery**

Receive the completed work within the agreed timeline unless affected by revisions, missing assets, unforeseen circumstances, or changes requested by the Client.

✓ **Respect**

Be heard.

Questions, concerns, and ideas are always welcome.

2.3 Designer Bill of Rights

TeerNetStudio also reserves the following rights.

✓ **Creative Freedom**

To make professional creative decisions that improve quality while respecting the Client's vision.

✓ **Respectful Communication**

To work in an environment free from abusive language, harassment, threats, discrimination, or inappropriate behaviour.

✓ Fair Compensation

To receive payment according to the agreed payment schedule.

✓ Healthy Working Hours

TeerNetStudio is committed to delivering quality work.

Emergency requests may be accepted, but availability outside normal working hours cannot be guaranteed.

✓ Portfolio Rights

Unless otherwise agreed in writing, completed projects may be displayed within TeerNetStudio's portfolio after public release.

(Client confidentiality is always respected.)

✓ Project Refusal

TeerNetStudio reserves the right to decline projects involving:

- Illegal activities
 - Hate speech
 - Adult content
 - Copyright infringement
 - Fraud
 - Discrimination
 - Harmful or misleading content
 - Projects conflicting with personal or ethical values
-

✓ Scope Protection

Major changes outside the approved Project Scope may require:

- Additional time
 - Additional quotation
 - New agreement
-

2.4 Shared Responsibilities

A successful creative partnership requires effort from both parties.

Both agree to:

- Communicate honestly.
 - Respect agreed timelines.
 - Respond within a reasonable timeframe.
 - Keep discussions professional.
 - Review deliverables carefully before approval.
 - Work together toward the project's success.
-

2.5 Partnership Philosophy

TeerNetStudio does not view Clients as "orders."

We view every project as an opportunity to build long-term professional relationships based on trust, quality, and shared success.

Our goal is not simply to deliver designs.

Our goal is to create work that both the Client and the Designer are proud to stand behind.

2.6 Core Values

Professionalism

Transparency

Quality over Quantity

Respect over Ego

Communication before Assumptions

Solutions before Problems

Partnership over Transactions

Notes

This section establishes the professional standards expected throughout the partnership and applies to every project completed under this agreement.

TNS-001 — Creative Partnership Agreement

Section 3 — Project Workflow

3.1 Overview

Every creative project at **TeerNetStudio** follows a structured workflow designed to ensure clarity, efficiency, and a professional experience for both the Client and the Designer.

Following this workflow helps minimize misunderstandings, reduce delays, and maintain consistent project quality.

3.2 Standard Workflow

3.3 Phase 1 — Discovery

Before any work begins, both parties discuss:

- Project goals
- Target audience
- Design style
- Deliverables
- Budget
- Timeline
- Questions and expectations

No design work begins during this stage.

3.4 Phase 2 — Project Scope

Once the project is understood, the Designer prepares a **Project Scope (TNS-002)** outlining:

- Services
- Deliverables
- Timeline
- Revision allowance
- File formats
- Pricing
- Exclusions

This document becomes the project's blueprint.

3.5 Phase 3 — Approval

The project officially begins only after:

- Project Scope is approved.
- Quotation is accepted.
- Creative Partnership Agreement is accepted.
- Required advance payment has been received (if applicable).

This ensures both parties share the same expectations before work starts.

3.6 Phase 4 — Creative Process

The Designer creates the agreed work according to the approved Project Scope.

During this stage:

- Regular updates may be shared when appropriate.
 - The Client may be asked for clarification if additional information is required.
 - Work is completed based on the approved scope.
-

3.7 Phase 5 — Review & Revisions

The Client reviews submitted work and provides feedback.

To ensure an efficient workflow:

- Feedback should be consolidated into a single message whenever possible.
- Revision requests should remain within the approved project scope.
- Major changes may require a revised quotation.

The complete Revision Policy is defined in **Section 7**.

3.8 Phase 6 — Final Approval

Once the Client confirms that the work meets the agreed requirements:

The project is considered **Approved**.

After approval:

- Only minor corrections (such as spelling mistakes caused by the Designer) will be corrected without additional cost.
 - Requests for new concepts or significant design changes will be treated as new work.
-

3.9 Phase 7 — Final Payment

Where applicable, the remaining balance must be cleared before:

- Final high-resolution files
- Source files
- Editable files

- Commercial assets

are released.

3.10 Phase 8 — Project Delivery

The Designer delivers the agreed files according to the Project Scope.

Examples include:

- PNG
- JPG
- PDF
- SVG
- AI
- PSD
- MP4
- Other agreed formats

Only the formats specified within the Project Scope are included.

3.11 Project Completion

A project is considered officially completed once:

- Final files have been delivered.
- Outstanding payments have been completed.
- The Client confirms successful receipt of all agreed deliverables.

3.12 Future Support

Future assistance requested after project completion may include:

- Minor updates
- File conversion
- Additional exports
- New deliverables
- Further design work

Such requests may be quoted separately unless otherwise agreed.

Important Notice

To maintain an efficient and professional workflow, TeerNetStudio follows the above process for every project.

Skipping workflow stages may not always be possible.

This ensures fairness, consistency, and the highest quality of service for every Client.

End of Section 3

TeerNetStudio Client Experience System (TCES)
TNS-001 • Creative Partnership Agreement • v1.0
Confidential • Internal & Client Use

TNS-001 — Creative Partnership Agreement

Section 4 — Client Responsibilities

4.1 Shared Success

Creative work is most successful when both the Client and the Designer actively contribute throughout the project.

To ensure a smooth experience, the Client agrees to fulfill the following responsibilities during the project lifecycle.

4.2 Provide Accurate Project Information

The Client agrees to provide complete and accurate information before the project begins, including but not limited to:

- Project objectives
- Target audience
- Brand guidelines (if available)
- Preferred style or references
- Required text/content
- Logos and brand assets
- Images and media
- Required dimensions/platform
- Any mandatory requirements

Incomplete or incorrect information may affect the final outcome or project timeline.

TeerTip

The clearer your project brief is, the faster and more accurately your vision can be brought to life.

4.3 Timely Communication

The Client agrees to respond to important questions, approvals, and feedback within a reasonable timeframe.

Delayed responses may result in adjustments to the estimated delivery schedule.

4.4 Consolidated Feedback

Whenever possible, feedback should be collected and shared in **one organized message** rather than multiple messages over several hours or days.

Example:

Preferred

- Increase logo size
- Change background to blue
- Replace image 2
- Fix spelling in heading

Not Preferred

```
10:00 AM - Change logo

11:15 AM - Change colour

2:00 PM - Actually change font

7:00 PM - Move text

11:30 PM - Remove shadow
```

Providing consolidated feedback helps reduce confusion and speeds up revisions.

4.5 Review Deliverables Carefully

Before approving any draft, the Client agrees to carefully review:

- Spelling
- Grammar

- Phone numbers
- Email addresses
- Website URLs
- Prices
- Dates
- Social media handles
- QR Codes
- Overall content

Approval indicates that these details have been reviewed by the Client.

TeerTip

A careful review before approval helps prevent unnecessary delays and ensures accurate final deliverables.

4.6 Provide Legal Rights

The Client confirms that they have the necessary rights or permission to use any materials they provide, including:

- Logos
- Images
- Fonts
- Videos
- Audio
- Brand assets
- Trademarks
- Written content

The Designer cannot be held responsible for copyright issues related to client-supplied materials.

4.7 Respect the Approved Scope

Requests that significantly change the approved concept, deliverables, or project direction after work has begun may require:

- Additional time
- Revised pricing

- Updated Project Scope
-

4.8 Respect Agreed Timelines

The Client acknowledges that project timelines are based on timely approvals and communication.

Delays in providing required materials or approvals may result in corresponding adjustments to the delivery schedule.

4.9 Professional Communication

The Client agrees to maintain respectful and professional communication throughout the partnership.

TeerNetStudio maintains a zero-tolerance policy toward:

- Harassment
- Threats
- Hate speech
- Discrimination
- Personal attacks
- Abusive or offensive language

Constructive feedback is always welcome and encouraged.

4.10 Payment Responsibilities

The Client agrees to complete payments according to the agreed quotation and payment schedule.

Final deliverables may be withheld until all outstanding payments have been received.

4.11 Approval Responsibility

Once a design is marked as **Approved** by the Client, it is considered accepted.

Requests that introduce new concepts or major changes after approval may require additional quotation and scheduling.

4.12 Collaboration Commitment

The Client agrees to work collaboratively with the Designer by:

- Sharing honest feedback.
- Respecting agreed processes.
- Communicating openly.
- Supporting timely decision-making.

This partnership works best when both parties contribute toward the same creative goal.

Why This Matters

Creative projects are a collaborative process.

The Designer is responsible for creating professional work, while the Client plays an equally important role by providing accurate information, timely feedback, and clear approvals.

When both parties fulfill their responsibilities, projects are completed faster, more accurately, and with a better overall experience for everyone involved.

Important Note

These responsibilities are not intended to create restrictions.

They exist to ensure that every project is completed with clarity, fairness, and the highest possible quality.

End of Section 4

Founder Review

I want to add **Client Response SLA (Service Level Agreement)** later.

For example:

Situation	Expected Client Response
Draft Review	Within 3 business days
Revision Feedback	Within 5 business days
Approval	Within 5 business days
Missing Assets	As soon as possible

And another rule:

***If there is no response for 30 consecutive days, the project will be marked as "On Hold."** After a longer period (for example, 60–90 days), it can be considered closed, with any restart treated as a new project or subject to a restart fee.*

BRO. 🐶

Now we enter **Section 5**.

This section protects **your time, your mental health, and your professionalism**.

One thing I want to establish:

A freelancer is not available 24×7.

Clients often think WhatsApp = Instant Support.

We're going to fix that politely.

TNS-001 — Creative Partnership Agreement

Section 5 — Designer Responsibilities

5.1 Our Commitment

TeerNetStudio is committed to delivering professional creative services with integrity, transparency, and respect.

Every project is approached with the same level of dedication, regardless of its size or budget.

5.2 Professional Standards

The Designer agrees to:

- Deliver work that aligns with the approved Project Scope.
- Maintain a high standard of quality and attention to detail.
- Follow professional design practices.
- Respect agreed deadlines whenever reasonably possible.

TeerTip

Quality takes time. Our goal is not simply to finish quickly—but to deliver work we're both proud of.

5.3 Honest Communication

If any issue arises that could affect the project timeline or deliverables, TeerNetStudio will inform the Client as soon as reasonably possible.

Examples include:

- Technical issues
- Illness
- Unexpected emergencies
- Missing project information
- Delays caused by third-party services

Transparency is always preferred over silence.

5.4 Confidentiality

All confidential information shared by the Client will be handled responsibly.

Unless written permission is provided, TeerNetStudio will not intentionally disclose confidential files, passwords, unreleased branding, or sensitive business information.

5.5 Respect for Client Property

Client-provided assets such as logos, photographs, brand guidelines, videos, and documents will only be used for the agreed project.

These assets will not be redistributed, sold, or reused without permission.

5.6 Professional Advice

Whenever appropriate, TeerNetStudio may recommend improvements regarding:

- Layout
- Typography
- Colour usage
- Branding consistency
- Accessibility
- Print considerations
- Social media best practices

These recommendations are intended to improve the final outcome, while respecting the Client's final decisions.

TeerTip

Good design is collaborative. Suggestions are never intended to replace your vision—they're meant to strengthen it.

5.7 Ethical Practice

TeerNetStudio will not knowingly create work that promotes:

- Illegal activities
- Fraud
- Copyright infringement
- Hate speech
- Harassment
- Discrimination
- Harmful misinformation
- Malicious or deceptive content

Projects that conflict with these principles may be respectfully declined.

5.8 Data Protection

Reasonable care will be taken to organize and protect active project files.

However, Clients are encouraged to securely store all delivered files after project completion.

5.9 Project Records

For quality assurance and future reference, TeerNetStudio may retain project records, including:

- Project Scope
- Quotations
- Invoices
- Final Deliverables

- Communication records related to the project

Confidentiality obligations remain in effect.

5.10 Continuous Improvement

TeerNetStudio is committed to continually improving its creative process, communication, documentation, and client experience.

Feedback is welcomed and helps improve future collaborations.

5.11 Equal Respect

Every Client deserves the same professionalism regardless of:

- Project value
- Business size
- Industry
- Experience level

Every project receives honest effort and professional treatment.

Why This Matters

Choosing a designer means placing trust in someone with your ideas, your brand, and often your business.

This section reflects TeerNetStudio's commitment to earning that trust through professionalism, clear communication, ethical practices, and consistent quality.

Important Note

Design is a collaborative service, not just a final product.

Our responsibility extends beyond creating visuals—we strive to provide guidance, transparency, and a reliable creative experience from start to finish.

End of Section 5

Founder Review (V2 Ideas)

I think we should also describe **what they won't do**.

For example:

What We Don't Do

- We don't use pirated fonts or assets.
- We don't claim AI-generated work as handmade.
- We don't sell one client's design to another.
- We don't disappear after taking payment.
- We don't rush work at the cost of quality.
- We don't make promises we can't keep.

TNS-001 — Creative Partnership Agreement

Section 6 — Communication Standards

6.1 Purpose

Clear communication is essential for every successful creative project.

This section establishes how TeerNetStudio and the Client communicate throughout the project to ensure clarity, efficiency, and professionalism.

6.2 Official Communication Channels

To keep project discussions organized, official communication should take place through one or more of the following channels:

- WhatsApp
- Email
- Discord
- Google Meet (Scheduled)
- Other mutually agreed platforms

Where possible, project-related decisions should remain within a single primary communication channel.

TeerTip

Keeping all project communication in one place helps avoid confusion, missing information, and conflicting instructions.

6.3 Business Hours

Standard business hours:

Monday - Saturday

10:00 AM - 8:00 PM (IST)

Messages sent outside business hours are always welcome, but responses may be provided during the next working period.

Business hours may occasionally vary due to holidays, travel, health, or unforeseen circumstances.

6.4 Response Time

TeerNetStudio aims to respond within:

Communication Type	Estimated Response
General Messages	Within 24 hours
Project Updates	Within 24 hours
Revision Requests	Within 24 hours
Urgent Issues	As soon as reasonably possible

These are response goals rather than guaranteed response times.

6.5 Meetings

Meetings may be arranged when necessary for:

- Project discussions
- Brand strategy
- Design reviews
- Clarifications
- Final presentations

Meetings should be scheduled in advance whenever possible.

6.6 Feedback Standards

To ensure efficient revisions:

Clients are encouraged to submit feedback as one organized list rather than multiple messages over an extended period.

Well-organized feedback helps reduce delays and improves project accuracy.

Example

Preferred:

Revision Round 2

1. Increase logo size
2. Change background colour
3. Replace second image
4. Correct phone number

6.7 Project Decisions

For clarity, important project approvals should be confirmed in writing.

Examples include:

- Project approval
- Final design approval
- Timeline changes
- Additional work
- Budget changes

Written confirmation helps prevent misunderstandings for both parties.

6.8 Respectful Communication

Both the Client and the Designer agree to communicate professionally and respectfully throughout the partnership.

Constructive feedback is always encouraged.

Personal attacks, harassment, threats, discrimination, or abusive behaviour are not acceptable.

6.9 Emergency Requests

Occasionally, Clients may require urgent work.

While TeerNetStudio will make reasonable efforts to assist, emergency requests:

- depend on current availability,

- may require timeline adjustments,
 - and may be subject to an express service fee if agreed in advance.
-

6.10 Communication Delays

If either party expects to be unavailable for an extended period, they should inform the other party whenever reasonably possible.

Early communication helps both parties plan effectively.

6.11 Language

Unless otherwise agreed, project communication will be conducted in English.

Minor discussions may take place in another mutually understood language if both parties are comfortable.

6.12 Respecting Time

Both parties agree to respect each other's working hours, scheduled meetings, and response times.

Professional communication contributes to a smoother creative process and a better working relationship.

Why This Matters

Creative work depends on communication as much as design.

Clear conversations reduce misunderstandings, speed up approvals, improve collaboration, and help both the Client and the Designer stay focused on creating great work.

These standards are not intended to limit communication—they exist to make communication more effective.

Important Note

Questions are always welcome.

There is no such thing as a "bad question."

Open and respectful communication is encouraged throughout the entire project.

End of Section 6

TNS-001 — Creative Partnership Agreement

Section 7 — Revision Policy

7.1 Purpose

Creative work naturally evolves through feedback and collaboration.

This Revision Policy ensures that revisions remain organized, transparent, and fair for both the Client and the Designer.

7.2 What is a Revision Round?

A **Revision Round** is one consolidated set of feedback submitted by the Client after reviewing a draft.

A revision round may contain multiple minor changes submitted together.

Example:

Revision Round 1

- ✓ Increase logo size
- ✓ Change headline colour
- ✓ Replace image
- ✓ Fix spelling
- ✓ Align text

This is considered **one revision round**.

TeerTip

Collecting all feedback into one message speeds up revisions and helps prevent missed changes.

7.3 Minor Revisions

Minor revisions are included within the agreed revision allowance.

Examples include:

- Colour adjustments
- Font changes
- Alignment corrections
- Spacing adjustments
- Image replacement
- Text corrections
- Minor layout improvements
- Small icon replacements

These changes do not alter the approved creative direction.

7.4 Major Revisions

Major revisions fall outside the standard revision process.

Examples include:

- Completely new layout
- New visual concept
- Different design style
- Rebranding after approval
- Significant content changes
- New deliverables
- Major structural redesign

Major revisions may require:

- Additional quotation
 - Updated timeline
 - Revised Project Scope
-

7.5 New Concept Requests

Once a concept has been approved and work has progressed, requests to explore an entirely different creative direction will be treated as a **new design request**, not a revision.

7.6 Revision Allowance

The number of included revision rounds for each project will be specified in the **Project Scope (TNS-002)**.

Any additional revision rounds beyond the agreed allowance may incur additional charges.

Each service at TeerNetStudio includes a recommended default revision allowance.

Unless otherwise agreed in writing, these defaults apply.

However, revision allowances may be customized within the Project Scope (TNS-002) to better suit the requirements of a specific project.

Service	Default Revision Rounds
Logo Design	3
Brand Identity	3
Social Media Post	2
Poster / Flyer	3
Banner	2
YouTube Thumbnail	2
Brochure	3
Business Card	2
Presentation	3
Monthly Design Package	Unlimited minor revisions within the approved concept*

This ensures consistency while allowing flexibility for unique projects.

7.7 Approval

When the Client confirms that a draft is approved, that version becomes the approved creative direction.

Subsequent requests that significantly change the approved design may be treated as new work.

7.8 Designer Corrections

Errors introduced by the Designer, such as spelling mistakes, formatting issues, or accidental omissions, will be corrected without affecting the revision allowance.

7.9 Client-Supplied Errors

Corrections resulting from inaccurate or incomplete information provided by the Client (such as incorrect phone numbers, prices, or text) may be treated as a standard revision or additional work, depending on the stage of the project.

7.10 Revision Response Time

To help maintain project momentum, Clients are encouraged to submit revision requests within a reasonable time after receiving a draft.

Extended delays may impact the overall project schedule.

7.11 Additional Revision Charges

If additional revision rounds are requested beyond the agreed allowance, the Designer will inform the Client of any applicable charges before continuing.

No additional work will begin without the Client's approval.

Why This Matters

Revisions are an important part of the creative process.

This policy is not intended to limit creativity—it exists to ensure that feedback remains organized, projects stay on schedule, and both the Client and the Designer have a clear understanding of how changes are handled.

Important Note

A revision improves an existing approved concept.

A completely new creative direction is considered a new project scope.

Understanding this distinction helps maintain fairness and project efficiency.

End of Section 7

TNS-001 — Creative Partnership Agreement

Section 8 — Project Timeline & Management

8.1 Purpose

Every project follows an agreed timeline to help both the Client and the Designer plan effectively.

This section explains how project schedules are managed, how delays are handled, and what happens if a project is paused or becomes inactive.

8.2 Estimated Timeline

Project timelines are estimates based on:

- Approved Project Scope
- Timely client communication
- Timely approvals
- Required assets being received
- No major scope changes

Estimated timelines begin only after all project requirements have been fulfilled.

TeerTip

A project cannot begin until the required information, assets, approvals, and agreed advance payment have been received.

8.3 Project Start Date

The official project start date begins when all of the following have been completed:

- Project Scope approved
- Quotation accepted
- Creative Partnership Agreement accepted
- Required advance payment received

- Required project assets received
-

8.4 Client Delays

If the Client delays providing:

- Feedback
- Approvals
- Images
- Logo
- Brand assets
- Text
- Required information

the delivery timeline may be adjusted accordingly.

The Designer will not be responsible for delays caused by missing client information.

8.5 Designer Delays

If TeerNetStudio anticipates any delay caused by:

- Illness
- Emergency
- Technical failure
- Unforeseen circumstances

the Client will be informed as soon as reasonably possible.

Where possible, an updated delivery estimate will be provided.

8.6 Project On Hold

A project may be marked as **On Hold** if progress cannot continue due to:

- Missing client feedback
- Missing required assets
- Outstanding approvals
- Client-requested pause
- Outstanding payments

During this period, project deadlines are automatically paused.

8.7 Inactive Projects

If no meaningful communication or required project activity is received from the Client for **30 consecutive calendar days**, the project may be marked as **Inactive**.

Before doing so, TeerNetStudio will make a reasonable effort to contact the Client using the agreed communication channel.

8.8 Project Closure

If a project remains inactive for **90 consecutive calendar days**, TeerNetStudio may close the project.

Project closure may require:

- A new booking
- A revised quotation
- Updated timelines
- A restart fee (if applicable)

This depends on the stage of the original project and current workload.

> Business Day = Monday–Saturday, excluding public holidays observed by TeerNetStudio. Eventually Same as Noraml Calender Holidays.

8.9 Restart Policy

Where a closed project is reopened after an extended period, previously completed work will be reviewed before continuation.

If significant time has passed or project requirements have changed, additional work may be quoted separately.

8.10 Rush Projects

Projects requiring completion within unusually short timeframes may:

- Depend on current availability

- Require adjustment to existing schedules
- Be subject to an express service fee

Rush requests are accepted at the Designer's discretion.

8.11 Timeline Changes

If either party requests changes that affect:

- Deliverables
- Project scope
- Revision volume
- Creative direction

the project timeline may be updated to reflect the additional work required.
Any significant changes will be discussed before implementation.

8.12 Project Completion

A project is considered complete once:

- All agreed deliverables have been provided.
- Final payment has been received.
- The project has been formally closed by TeerNetStudio.

Any future work will be treated as a separate project unless otherwise agreed.

Why This Matters

Creative projects often involve multiple rounds of communication, approvals, and collaboration.

A clear timeline protects both the Client and the Designer by ensuring expectations remain realistic, organized, and fair throughout the project.

Timeline adjustments are not penalties—they are a practical part of managing professional creative work.

Important Note

Project timelines depend on collaboration.

The faster decisions and required materials are shared, the smoother and faster the project can be completed.

End of Section 8

Perfect. 

We'll officially adopt:

- **Business Day** → Defined in Section 1 (Definitions).
- **Calendar Days** → Used for inactivity, project closure, and waiting periods.

That keeps the agreement consistent.

Now let's continue.

TNS-001 — Creative Partnership Agreement

Section 9 — Payment Policy

9.1 Purpose

This Payment Policy establishes clear expectations regarding project pricing, payment schedules, invoicing, and financial responsibilities.

Its purpose is to maintain transparency, prevent misunderstandings, and ensure a professional working relationship.

9.2 Project Pricing

All project pricing will be clearly outlined in the approved **Quotation (TNS-004)** before work begins.

The quotation will include:

- Services included
- Deliverables
- Revision allowance
- Timeline
- Project price
- Any additional agreed charges

No hidden fees will be introduced without prior discussion and Client approval.

9.3 Payment Schedule

Unless otherwise agreed in writing:

Stage	Payment
Before Project Begins	50% Advance
Before Final Delivery	Remaining 50%

*"The required advance payment, as specified in the approved quotations as per **TeerNetStudio Client Experience System (TCES)**"*

Alternative payment schedules may be agreed for larger or long-term projects.

TeerTip

Advance payments reserve your project slot and allow work to begin with confidence for both parties.

9.4 Accepted Payment Methods

Accepted payment methods may include:

- UPI
- Bank Transfer
- Approved Payment Gateway
- Other mutually agreed methods

Available payment methods will be specified on the invoice.

9.5 Currency

Unless otherwise agreed, all quotations and invoices are issued in:

Indian Rupees (INR ₹)

For international clients, an alternative currency may be agreed before project commencement.

9.6 Additional Work

Work outside the approved Project Scope is **not automatically included**.

Examples include:

- New concepts
- Additional deliverables
- Extra revision rounds
- New design requests
- Rush delivery
- Additional export formats

Any additional work will be quoted and approved before commencement.

9.7 Late Payments

If payment is delayed:

- Final deliverables may be withheld.
- Source files may be withheld.
- Commercial usage rights may remain suspended until full payment is received.

TeerNetStudio will always attempt to resolve payment issues through respectful communication before taking further action.

9.8 Refunds

Refund requests are handled according to the **Refund Policy (TNS-005)**.

As creative work involves time, planning, and intellectual effort, completed work may not be eligible for a full refund.

Refund eligibility depends on the stage of the project.

9.9 Taxes

Any applicable taxes, where legally required, will be clearly indicated on the quotation or invoice.

9.10 Payment Confirmation

A project payment is considered complete only after funds have been successfully received and confirmed by TeerNetStudio.

Clients are encouraged to retain payment receipts for their own records.

9.11 Non-Payment

If outstanding payments remain unresolved:

- Project work may be paused.
 - Delivery may be withheld.
 - Future work may be declined until previous balances have been settled.
-

9.12 Financial Transparency

TeerNetStudio believes in transparent pricing.

Clients will always be informed in advance of:

- Additional charges
- Scope changes
- Rush fees
- New quotations

No additional charge will be applied without prior discussion and Client approval.

Why This Matters

A clear payment process protects both the Client and the Designer.

It ensures that expectations are understood from the beginning, reduces misunderstandings, and allows creative work to progress without unnecessary financial uncertainty.

Important Note

Payment is not simply for the final design.

It also covers the time, research, planning, creative expertise, communication, revisions, and project management invested throughout the creative process.

End of Section 9

TNS-001 — Creative Partnership Agreement

Section 10 — Copyright & Ownership

10.1 Purpose

This section defines the ownership, usage rights, and intellectual property associated with creative work produced under this agreement.

Its purpose is to ensure both the Client and the Designer clearly understand who owns what, when ownership transfers, and how creative assets may be used.

10.2 Ownership Before Final Payment

Until the project has been paid in full, all concepts, drafts, previews, source files, and working files remain the intellectual property of **TeerNetStudio**.

During this stage, preview files are provided solely for review and approval purposes and may not be used commercially, published, or redistributed.

10.3 Ownership After Final Payment

Upon receipt of full payment, ownership of the **final approved deliverables** transfers to the Client, unless otherwise stated in the approved Project Scope or Quotation.

The Client may then use the final deliverables for their intended business or personal purposes.

10.4 Source Files

Source files are **not automatically included** with every project.

If source files are included in the agreed Project Scope or purchased separately, they will be delivered after full payment.

Examples include:

- Adobe Photoshop (.PSD)
- Adobe Illustrator (.AI)

- Adobe InDesign (.INDD)
- Adobe After Effects (.AEP)
- Canva Editable Files
- Figma Files
- Other editable project files

If not specifically included, only the agreed export formats will be delivered.

TeerTip

Many projects only require final exported files (such as PNG, JPG, PDF, or MP4). Editable source files are a separate deliverable and should be requested before the project begins.

10.5 Portfolio Rights

Unless otherwise agreed in writing, TeerNetStudio reserves the right to display completed public work within its portfolio for the purpose of showcasing creative experience.

This may include:

- Portfolio website
- Social media
- Behance
- Dribbble
- Client presentations
- Award submissions

Confidential or unreleased work will never be shared without the Client's permission.

10.6 Third-Party Assets

Some projects may include licensed or third-party assets such as:

- Stock images
- Fonts
- Icons
- Illustrations
- Mockups
- Audio

- Video

Ownership and licensing of these assets remain subject to their original license agreements. The Client is responsible for obtaining any additional licenses required for extended commercial use unless otherwise agreed.

10.7 Client-Supplied Materials

The Client confirms that they have the necessary rights to use all materials provided for the project.

This includes:

- Logos
- Images
- Videos
- Audio
- Brand assets
- Trademarks
- Documents
- Written content

TeerNetStudio is not responsible for copyright claims arising from materials supplied by the Client.

10.8 Unauthorized Use

Preview files, draft concepts, rejected concepts, or unpaid work may not be:

- Published
- Sold
- Redistributed
- Modified
- Used commercially
- Claimed as final work

without written permission from TeerNetStudio.

10.9 AI & Creative Tools

TeerNetStudio may use industry-standard creative tools, including AI-assisted tools, to improve workflow efficiency where appropriate.

Regardless of the tools used, the final deliverables remain subject to the quality standards, review process, and responsibilities defined in this agreement.

If a project requires AI-free creation or has specific restrictions regarding AI usage, this must be agreed upon in writing before the project begins.

10.10 Moral Rights

Nothing in this agreement limits either party's legal rights where applicable under intellectual property laws.

This agreement is intended to clarify commercial ownership and usage rights within the scope of the project.

10.11 Commercial Usage

Unless otherwise specified in the Project Scope or Quotation, the Client receives the right to use the final approved deliverables for their intended commercial or personal purpose after full payment.

Transfer, resale, relicensing, or redistribution of the original editable files is not permitted unless expressly agreed.

Why This Matters

Creative work is intellectual property.

Clearly defining ownership protects both the Client and the Designer, ensuring there is no uncertainty about how the work may be used, shared, or modified after project completion.

Transparent ownership policies build trust and help prevent future disputes.

Important Note

Owning a final design does not automatically include ownership of every working file, draft, licensed asset, or creative process used to produce it.

The exact deliverables are always defined within the approved **Project Scope (TNS-002)** and **Quotation (TNS-004)**.

End of Section 10

TNS-001 — Creative Partnership Agreement

Section 11 — Confidentiality & Privacy

11.1 Purpose

Creative projects often involve sharing confidential business information, unpublished ideas, branding strategies, and digital assets.

This section explains how such information is handled and protected throughout the partnership.

11.2 Confidential Information

For the purpose of this agreement, confidential information may include, but is not limited to:

- Business strategies
 - Brand guidelines
 - Marketing plans
 - Unreleased products or services
 - Login credentials
 - Project files
 - Source files
 - Financial information shared for the project
 - Client databases
 - Internal documents
 - Any information clearly identified as confidential
-

11.3 Designer Commitment

TeerNetStudio agrees to handle confidential information responsibly and use it solely for the purpose of completing the agreed project.

Confidential information will not be intentionally disclosed to third parties without the Client's permission, unless required by law.

11.4 Client Commitment

The Client agrees not to publicly share:

- Internal quotations
- Draft concepts
- Unreleased project discussions
- Confidential business practices
- Internal documentation

without prior permission from TeerNetStudio.

This helps protect both parties and preserves the integrity of the creative process.

TeerTip

Great partnerships are built on trust. Respecting each other's confidential information protects ideas, businesses, and long-term relationships.

11.5 Access to Project Files

Where access to accounts, platforms, or cloud storage is required:

- Access should be limited to what is necessary for the project.
 - Credentials should be shared securely.
 - TeerNetStudio recommends changing passwords after project completion if sensitive accounts were accessed.
-

11.6 Data Storage

Project files and communication records may be securely retained for administrative, backup, and future support purposes.

However, TeerNetStudio **cannot guarantee** indefinite storage of project files.

Clients are strongly encouraged to maintain their own backups of all delivered files.

11.7 Public Portfolio

Completed projects may be displayed in the TeerNetStudio portfolio **only after they have been publicly released**, unless:

- the Client requests confidentiality in writing,
 - the Project Scope specifies otherwise, or
 - a separate Non-Disclosure Agreement (NDA) has been signed.
-

11.8 Non-Disclosure Agreements (NDA)

If a project requires a formal NDA, both parties may sign a separate NDA document before the project begins.

Where an NDA exists, its terms will take precedence over this section in relation to confidential information.

11.9 Security

TeerNetStudio takes reasonable measures to protect digital project assets and communications.

However, no digital system can guarantee absolute security.

Both parties are encouraged to follow good cybersecurity practices when sharing files and information.

11.10 Privacy

Personal information collected during the project will only be used for purposes directly related to:

- Communication
- Project management
- Invoicing
- Payment processing
- Legal compliance

TeerNetStudio does not sell or intentionally share Client personal information with unrelated third parties.

11.11 End of Partnership

The confidentiality obligations described in this section continue to apply even after the project has been completed, unless otherwise agreed in writing or required by law.

Why This Matters

Creative projects often begin long before they become public.

Respecting confidentiality protects business ideas, intellectual property, and the trust that allows successful collaborations to happen.

Privacy and professionalism are essential parts of every partnership.

Important Note

Confidentiality protects both the Client and the Designer.

Mutual trust allows creative work to be shared openly, reviewed honestly, and developed with confidence.

End of Section 11

TNS-001 — Creative Partnership Agreement

Section 12 — Our Professional Promise

12.1 Our Philosophy

At TeerNetStudio, we believe creative work is more than delivering files.

It is about building trust, solving problems, and creating meaningful experiences through thoughtful design.

Every project, regardless of its size, deserves professionalism, attention to detail, and genuine care.

12.2 Our Promise to Every Client

When you choose TeerNetStudio, you can expect:

Honest Communication

We will communicate openly, respectfully, and transparently throughout the project.

If something changes, you'll hear it from us first.

Quality Over Quantity

We focus on creating work that is purposeful, refined, and aligned with your goals rather than rushing projects for the sake of speed.

Respect for Your Time

We value deadlines and understand that your business depends on timely delivery.

Whenever possible, agreed timelines will be honoured.

Respect for Your Privacy

Your files, ideas, and confidential information will always be handled responsibly.

Professional Collaboration

Your feedback matters.

We believe the best creative work comes from collaboration, not assumptions.

Continuous Learning

Design constantly evolves.

TeerNetStudio is committed to learning, improving, and staying current with modern creative practices to deliver better work over time.

12.3 What You Will Never Experience

TeerNetStudio is committed to maintaining professional standards.

You should never experience:

- ✗ Hidden charges introduced without discussion.
 - ✗ Deliberately misleading communication.
 - ✗ Unauthorized use of your confidential information.
 - ✗ Unprofessional behaviour or disrespect.
 - ✗ Plagiarism or knowingly copied creative work.
 - ✗ Intentional ghosting after accepting a project.
 - ✗ False promises regarding results we cannot guarantee.
-

12.4 What We Ask in Return

Professional partnerships are built on mutual respect.

In return, we simply ask for:

- Honest communication.
- Respectful collaboration.
- Timely feedback.
- Fair treatment.
- Patience when unexpected situations arise.
- A shared commitment to creating the best possible outcome.

TeerTip

The strongest client relationships aren't built on contracts.

They're built on trust, consistency, and respect.

The contract simply helps protect those values.

12.5 Looking Beyond One Project

Our goal isn't to complete a single project.

Our goal is to become a creative partner you feel confident returning to whenever your brand grows, evolves, or faces new challenges.

Long-term relationships create stronger brands, better creative work, and a deeper understanding of your vision.

12.6 Our Standard

Every project completed by TeerNetStudio is guided by six core principles:

Professional before Beautiful.

Simple before Complex.

Clear before Clever.

Respect before Rules.

Experience before Paperwork.

Quality without Compromise.

These principles shape every decision we make—from our communication and documentation to the creative work we deliver.

Why This Matters

Creative work is built on trust.

A contract defines expectations, but professionalism is demonstrated through actions.

This promise reflects the standards TeerNetStudio strives to uphold in every partnership.

Final Thought

Great design creates attention.

Great partnerships create lasting impact.

TeerNetStudio is committed to delivering both.

End of Section 12

TNS-001 — Creative Partnership Agreement

Section 13 — Agreement Acceptance

13.1 Agreement Acceptance

By accepting this Creative Partnership Agreement, both the Client and TeerNetStudio acknowledge that they have read, understood, and agreed to the terms outlined in this document.

This agreement represents the shared understanding of how the project will be managed, communicated, and delivered.

Acceptance may be provided through:

- Digital Signature
 - Physical Signature
 - Email Confirmation
 - Written Confirmation via an agreed communication platform
 - Any other mutually agreed method
-

13.2 Entire Agreement

This document, together with the approved Project Scope (TNS-002), Quotation (TNS-004), and any written amendments agreed by both parties, forms the complete agreement between the Client and TeerNetStudio regarding the project.

Any previous discussions, verbal conversations, or informal messages are superseded by the final approved documents where applicable.

13.3 Amendments

No modification to this agreement shall be considered valid unless agreed upon by both the Client and TeerNetStudio.

Approved amendments may be documented through:

- Updated Agreement
- Written Email
- Signed Addendum

- Updated Project Scope
-

13.4 Severability

If any provision of this agreement is found to be unenforceable or invalid under applicable law, the remaining provisions shall continue in full force and effect.

13.5 Governing Law

This agreement shall be interpreted in accordance with the applicable laws of the jurisdiction in which TeerNetStudio operates, unless otherwise agreed in writing.

13.6 Agreement Version

This document follows the version control system of the **TeerNetStudio Client Experience System (TCES)**.

Item	Value
Document ID	TNS-001
Document Name	Creative Partnership Agreement
Version	1.0
Status	Approved
Last Updated	DD/MM/YYYY

Future revisions of this agreement will receive updated version numbers while maintaining document history.

13.7 Digital Agreement

Where permitted by applicable law, digital acceptance of this agreement shall carry the same intent as a handwritten signature.

13.8 Acknowledgement

By proceeding with the project, both parties confirm that they:

- Have read this agreement.
 - Understand its contents.
 - Agree to work together professionally.
 - Intend to fulfil their respective responsibilities throughout the project.
-

Why This Matters

A successful project is built on shared understanding.

This agreement exists to create clarity—not complexity.

By documenting expectations from the beginning, both the Client and TeerNetStudio can focus their energy on what truly matters:

Creating exceptional work together.

Closing Statement

Thank you for placing your trust in TeerNetStudio.

Every project represents more than a creative task—it represents someone's vision, ambition, and story.

We appreciate the opportunity to be part of that journey and look forward to building something meaningful together.
